The 2nd International Symposium on TGF-β in Cancer

Date: Monday, 1st April, 2019

Place: International Convention Hall (C201),

National Biotechnology Research Park, Building C

Agenda

Time	Topic	Speaker
12:30-13:00	Registration	
13:00-13:15	Opening Remarks	
13:15-14:00	Keynote speech:	Dr. Carl-Henrik Heldin
	Targeting of pro-tumorigenic	Professor in Molecular Cell
	TGF-β signaling in tumor	Biology, Medical Biochemistry
	therapy	and Microbiology, Uppsala
		University, Sweden
14:00-14:45	Involvement of hyaluronan	Dr. Paraskevi Heldin
	and CD44 in cancer and	Professor in Matrix Biology,
	inflammation	Medical Biochemistry and
	·	Microbiology, Uppsala
		University, Sweden
14:45-15:05	Break	
15:05-15:50	TGF-β as a therapeutic target	Dr. Wei-Hsien (Tommy) Hou
	in tumor immune	Assistant Clinical Professor and
	microenvironment:	Staff Radiation Oncologist, City
	Novel strategy in cancer	of Hope Antelope Valley Cancer
	immunotherapy	Center, California, USA
15:50-16:35	Mechanism of switching	
	TGF-β from a tumor	Dr. Jung S. Huang
	suppressor to a tumor	Professor in Biochemistry and
	promoter:	Molecular Biology, Saint Louis
	Implications for the prevention and treatment of	University School of Medicine, St. Louis, Missouri, USA
	human cancer	St. Louis, Missouri, USA
16:35-16:55	Panel discussion	
16:55-17:00	Closing remarks
